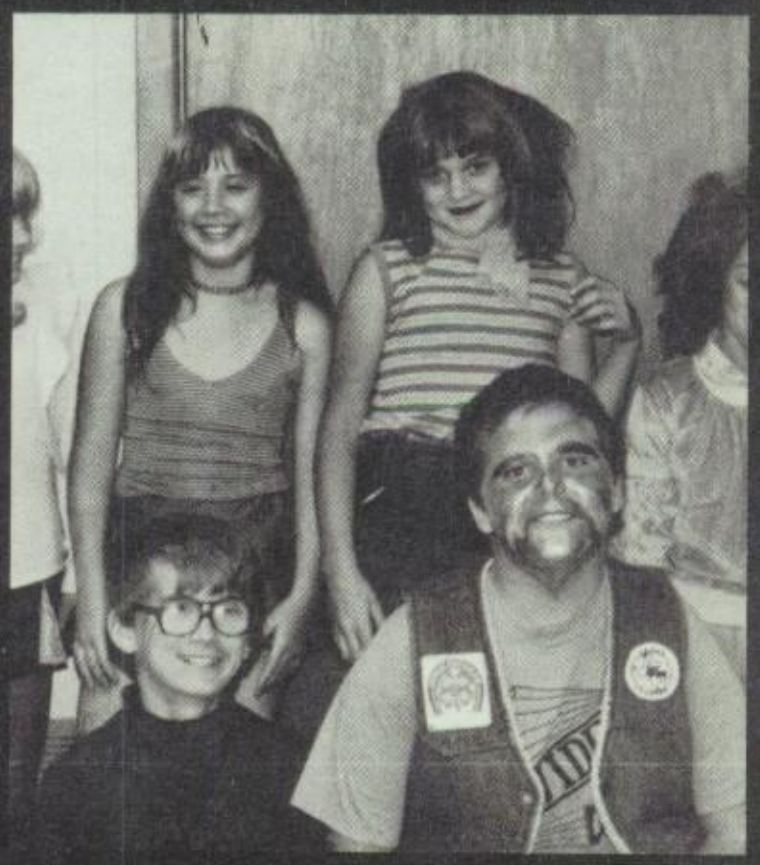
Friends . . . Getting together, lending an ear, a hand, or a voice. Having fun with, passing the time with, getting along with, or just putting up with—that's what friendship seems to be about . . .

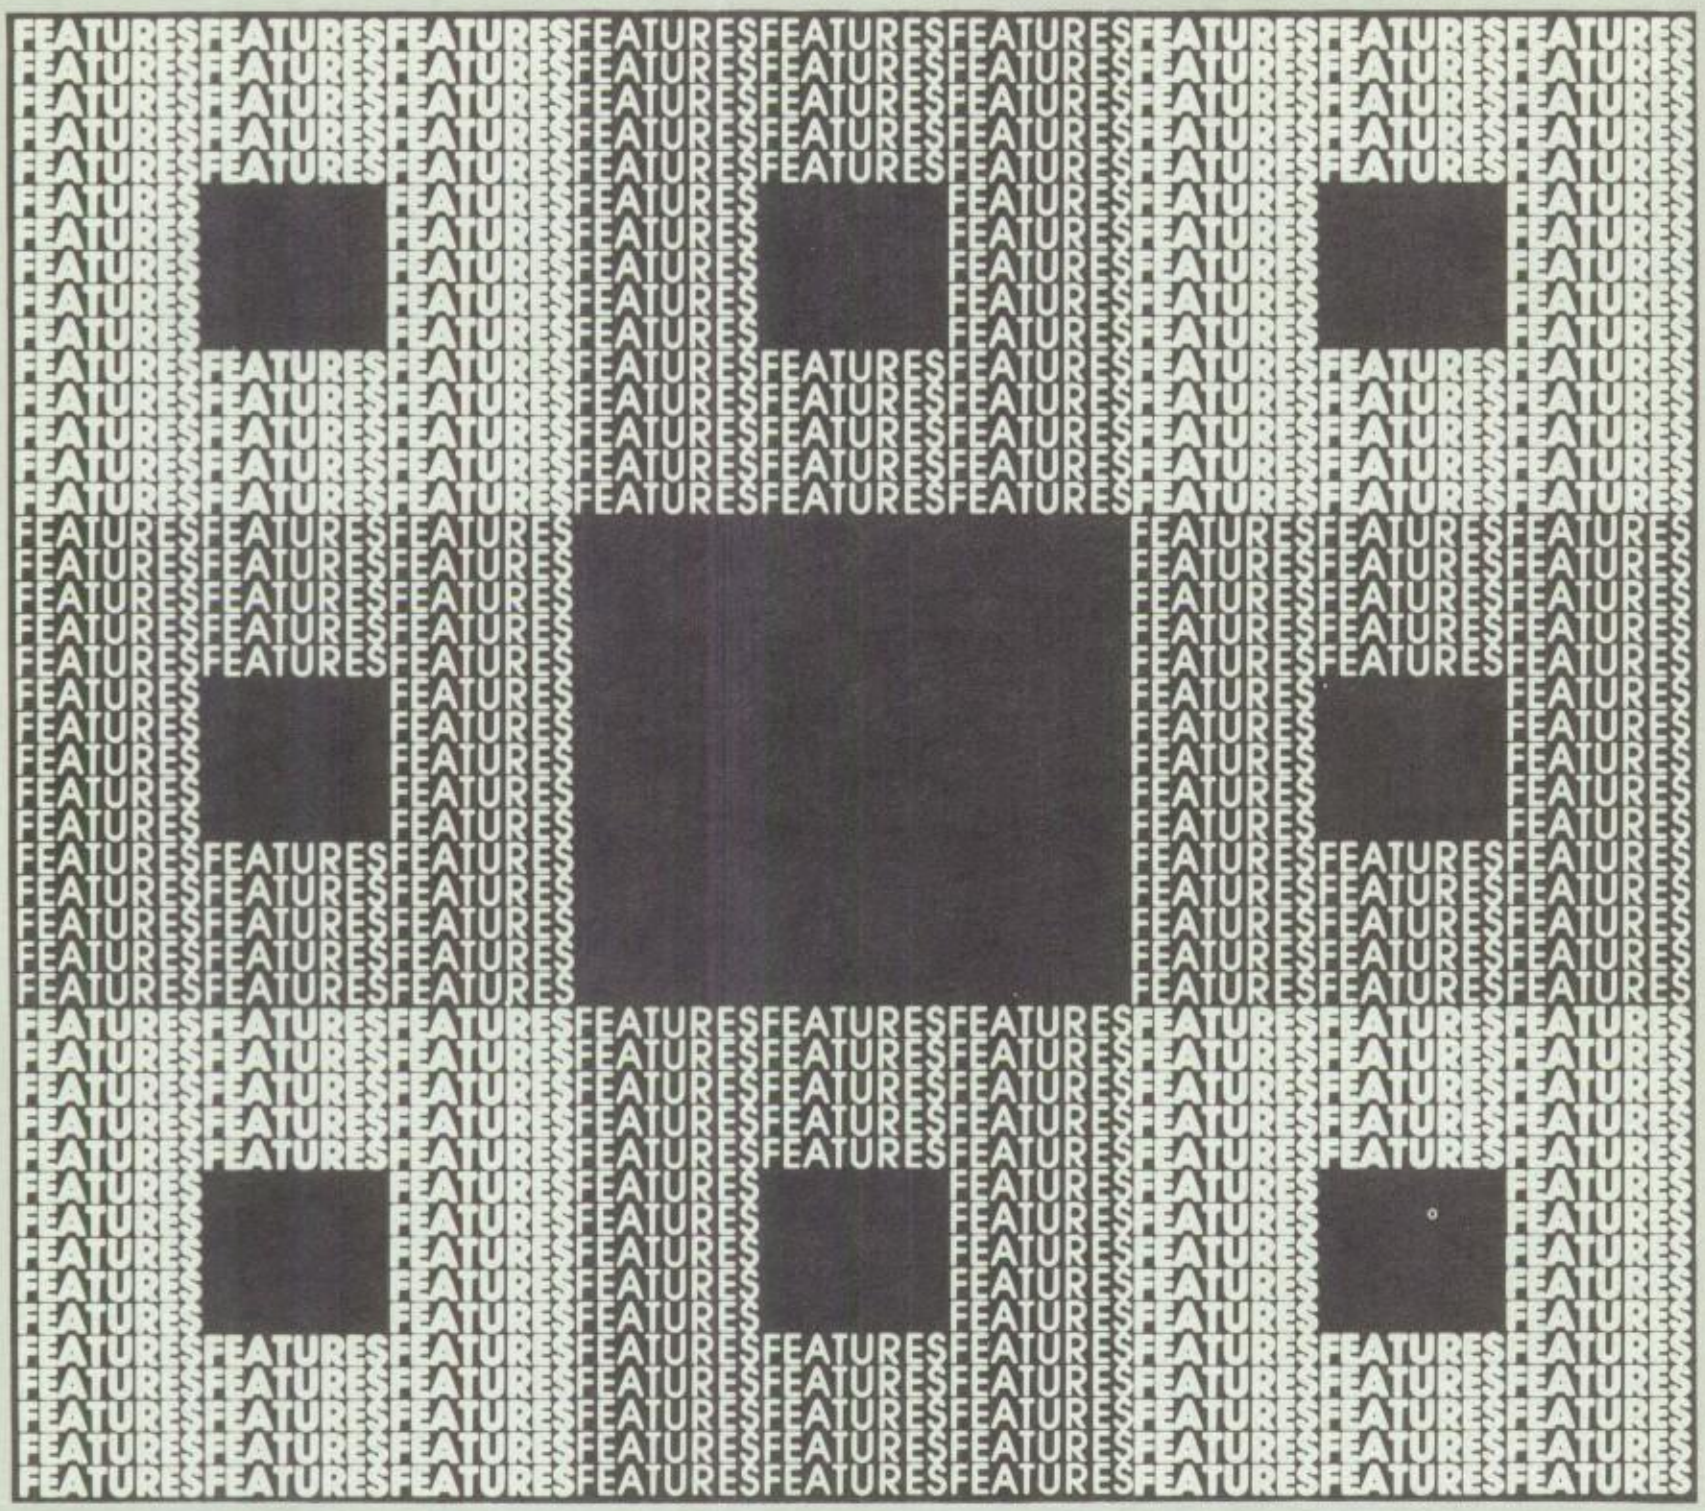


SPECIAL TIMES

In all your years in school, there are always those special times that you seem to remember forever.

These special times usually don't mean anything to anyone else, but without your own memory of them your life would really be incomplete.

1. Excitement is with us all as we load up for our long trip to Marathon.
2. Teresa, Tracy, Beverly, and Laurie picking out their senior rings.
3. The cheerleaders are always trying to boost our school spirit.



FEATURES

FAVORITES

Being chosen as a favorite is somewhat an exciting experience. Around October of each school year, high school students gather in the library to vote on their favorite class-mates. One thing about going to a small school like Divide, everyone is able to know as much possible about the next person. (That is if they want them to know.) This gives everyone a better chance to vote on the people that deserve to win votes in a particular category.

Staff Keeps . . . Busy . . . Busy . . . Busy!

This was a very busy year for all staffers. Only a few days after school started, they were already at work selling annual ads.

Selling annual ads seemed to be more of an expense to some then to others. Take Laurie Morgan for instance. On the way back from Abilene, her and her fellow salesman, Tami Frizzell, had to make a quick visit to the hospital in Sweetwater, after a sudden accident, right out of Sweetwater city limits. It was quite a shock, but everything turned out to be O.K. for both Tami and Laurie.

Members of the 1982-83 annual staff include—Tracy Jeter, Andy Brannon, Daryl Underwood, Wesley Scruggs, Liz Sutton, Libby Almanza, Tami Frizzell, Cheryl Yarbrough, Beverly Frizzell, Teresa Frizzell, Tracy Jones, and Laurie Morgan.

Enthusiastic and Determined

Determination and Enthusiasm are very important factors in any function, and if there is one thing to be said about any student, it would be that they are definitely determined and enthusiastic.

To do our best, to try and win, and to make our community proud of us is our main goal, and we are in hopes that we will someday fulfill this goal.

Trojans Try Hard . . .

After an exciting year of basketball for the 1981-1982 season, the boys knew that they would have to be really good to be known as well as the last years team. They didn't succeed at "being tops", but they did try their best.

Most of the boys team will return next year with the exception of three seniors, and one sophomore.

Two Trojan men made it on the All-district team, honorable mention. Those being, Senior—James Jones, and Sophomore—Tracy Jeter. We hope for an exciting year next year, and we know that the guys will put forth their best effort.

Members of the 1982-83 boys basketball team are (front) Mike Morgan, Tracy Jeter, Martin Chappa, Jeffery Jones, Wesley Scruggs, (back) Andy Falcon, James Jones, Jerry Frizzell, Daryl Underwood, Andy Brannon, Joe Avila, and Coach—John Griffin.

B-Ballers look to next Season

If there were to be any team in the state of Texas that really wanted to win, and really wanted to be in the state tournament, it would have to be our high school girls team. Every year at the first of basketball season our girls become very hopeful about themselves, and try at making the up-coming year the most successful.

This year wasn't very successful. They ended the season with a record of 20-2, but came very close to winning several other games. Their most exciting game would have to be when they took on the Roby Lions. It went into over time, and Divide ended with only three players on the court, and a score of 44, to Roby's 49.

All-District

Chosen for the all-dristict girls basketball team this year was Teresa Frizzell. She wasn't fortunate enough to make it on the first team, but she did make it on the second team.

WORK . . . WORK . . . REST!!!

Eighth grader, Kelly Scott, said that for fun she likes to read. "There isn't really that much to do around the house, so I usually find me a book, and sit down and read.", she said.

"I like to play volleyball," says school secretary, Penny Baucom, "but then I really don't have that much to have fun."

Just about everyone that attends Divide school is involved in at least one extra-curricular activity. Other than being busy with school work, and other things involved with school, students have their own fun.

We asked several students what they did for fun, and this is what they said . . .

Seventh grader, Andy Lee, announced that, "KISSING GIRLS!!!" was on the top of his list of favorite things. But, then on the more serious side, he also enjoys attending stock-shows, especially Houston.

Tracy Jones, a "JUNIOR", stated that she enjoyed doing anything that you're not suppose to do.

STUDENT LIFE

Sr's of '83

Being a senior can be a very important and exciting part of ones life. It's the first time for one to experience the true feeling of being superior to others, yet still be free to call themselves a kid.

As a senior, you start to learn and change, you become older and more mature, and you begin to have mixed emotions about certain things. With this, you start to realize the true pressures of being an adult.

Looking back, you are able to re-live some of the most memorable events in your lifetime, and at this time, you are able to make some memories that you will remember, your complete lifetime.

Closing the door to the "OLD" life which you lived as a kid, and opening the "NEW" door, to a more challenging and brighter life, is what being a senior is all about.

Year number three is a major part in lots of lives—with this we see five juniors finding themselves looking at only 12 months until graduation day, facing millions of decisions that have to be made, and not many answers to decide them with.

But, of course, none of our juniors devoted their entire 24 hours to wondering, worring, and wishing. They, at Sweetwater, wasted gas—dragging uptown and around peoples houses, money playing games and pool at Zapperz, and time PARTYING! They spent many hours chasing "The Opposite sex", and going out on dates.

As a Junior, you feel the true need to "live and explore.", and our Juniors definitely did just that.

Sophomores finally lost their "fishy" nickname, as they move up one step higher on the totem pole of life. They learned to live with new freshmen and older juniors and seniors. Great advantages came with being a sophomore; one of the major ones was turning sixteen. This brought lots of new drivers out on the town. Hangouts such as the Sonic, Zapperz, Village parking lot and the "drag" were where the action was.

Though they lost their greatest excuse for failure, they gained more respect socially.

The dream of every elementary boy and girl is to be in high school. This year's freshmen were no different. Since they had been in first grade the thought of "being a ninth grader" thrilled them.

Being a freshmen is a big step. One minute you're at the top of the elementary chart, the next you're on the bottom of a ladder with three steps to go before you reach graduation.

ME!

I am me . . . in all the world there is no-one else exactly like me. Everything that comes out of me is authentically mine, because I alone—chose it.

I own everything about me; my body, my feelings, my mouth, my voice, all my actions, whether they be to others or to myself.

I own my fantasies, my dreams, my hopes, my fears, I own all my triumphs and successes, all my failures and mistakes, because I own all of me. By doing so, I can love me in all parts.

I know there are aspects about myself that puzzle me, and other aspects that I do not know—but as long as I am friendly and loving to myself, I can courageously and hopefully look for solutions to the puzzles and for the ways to find out more about me—however, I look & sound, whatever I say and do, and whatever I think and feel at a given moment in time is authentically me—

If later, some parts of how I looked, sounded, thought, and felt turn out to be unfitting, I can discard that, which is unfitting, keep the rest, and invent something new for that, which I discarded.

I can see, hear, feel, think, say, and do—I have the tools to survive, to be close to others, to be productive, and to make sense and order out of my world, and out of the people and things outside of me—

I own me, therefore, I can engineer me—

I am me, and I am Okay!

Wreck Hospitalizes Divide Bus Driver

NOLAN — A Divide school district bus driver remained hospitalized Thursday with injuries received in a Wednesday afternoon bus accident that resulted in mostly minor injuries for 12 students, school officials said.

One sixth-grade student, Amy Schoolcraft, daughter of Mr. and Mrs. Barry Scott of rural Taylor County, was admitted to Rolling Plains Memorial Hospital for overnight observation and released Thursday morning, said Divide Superintendent Allan Dinsmore.

The other 11 students were treated Wednesday afternoon for minor injuries, such as cuts and scrapes, he said. Two other students were uninjured.

Bus driver Sue Griffin of Nolan remained in Rolling Plains Memorial Hospital with cuts, scrapes bruises and possible cracked vertebrae, Dinsmore said.

Dinsmore said the accident happened at 3:45 p.m. Wednesday two miles south of this Nolan County community on Farm Road 126. The bus overturned into a ditch after the driver lost control, he said.

The 10-year-old bus, valued at about $5,000, was damaged beyond repair, Dinsmore said.
